Basic Skill Development Training on 'Refrigeration & Air-conditioning'

Introduction

With experienced and qualified staff and comprehensive state-of-art R&D facilities the institute maintains its leading position in conducting training programs for the personnel from refining industry, petrochemical industry, automotive sector, power plants and related user industries and has trained more than 8000 personnel from India and abroad on different requirements.

As per the initiatives taken by the institute for 'CSIR-IIP Integrated Skill Development Training Programs' applications are invited from eligible Indian nationals for the training program on Refrigeration & Air-conditioning. Our Refrigeration and Air-Conditioning workshop is equipped with range of tools and auxiliary equipment and consumables needed for repair and maintenance of air-conditioners and refrigerators in sufficient quantity for imparting training and practices.

Objectives & Scope

Training is aimed at providing broad working knowledge of the Refrigeration & Air-conditioning Area which include detailed introduction of technique principles and in-depth hands on practices.

Contents

- | | |
|--|---|
| <ul style="list-style-type: none">• Different types of Air- Conditioning units• Different types of compressors,• Operation and maintenance of Air-Conditioning• Different types of Refrigerants.• Fundamental of Refrigerants,• Installation and commissioning of Air-Conditioning units.• Air-Conditioning equipment: Pressure Regulator, Burners, Pipe work, Brazing, essential and refrigeration electrics. | <ul style="list-style-type: none">• Different types of flames, heat resistant cloths and wares.• Practical training on repair of refrigerators.• Practical training on installation, maintenance and repair of window AC's.• Practical training on installation, maintenance and repair of split AC's. |
|--|---|
